PROFILE

Software Developer with 2+ years of experience, specializing in Python backend development using FastAPI, REST APIs, PostgreSQL, SQLAlchemy, and Docker. Experienced in developing APIs, implementing CRUD operations, database integration, authentication, validation, and backend application logic. Currently working at Accenture and previously interned at Spirale Infosoft, gaining frontend development experience with React.js, REST APIs, and Material UI.

EDUCATION

Dr. A. P. J. Abdul Kalam Technical University

Bachelor of Technology – Computer Science Engineering

Cumulative CGPA: 8.1

Lucknow, UP

July 2019 – June 2023

WORK EXPERIENCE

Accenture

Gurugram

Packaged App Development Associate

Feb 2024 - PRESENT

- Developed and maintained backend applications using Python and FastAPI, following modular and RESTful API design practices.
- Built and integrated REST APIs, implemented CRUD operations, request validation, exception handling, and database interactions.
- Worked with PostgreSQL, and Pydantic for data persistence, ORM-based operations, and schema validation. Implemented authentication and secured API endpoints using JWT-based authentication.
- Containerized backend applications using Docker to maintain consistent development and deployment environments. Used Git/GitHub for version control and collaborated with team members in an Agile development environment.

Spirale Infosoft

Noida

Software Developer Intern

July 2023 - Jan 2024

- Developed responsive web application components using React.js and Material UI.
- Integrated REST APIs to retrieve, display, and submit application data.
- Created reusable React components and implemented responsive UI designs for desktop and mobile devices.
- Worked with React state management and collaborated with developers to implement application features and resolve issues.
- Used Git for version control and collaborated with team members to manage code changes and feature development. Participated in debugging and troubleshooting UI and API integration issues to improve application stability and user experience.

SKILLS

- Languages – Python, JavaScript, SQL
- Backend & Frameworks – FastAPI, Django, REST APIs
- Database & ORM – PostgreSQL, MySQL
- Backend Concepts – Pydantic, JWT Authentication, CRUD, API Validation, Exception Handling Tools & Cloud – Docker, Git, GitHub, Swagger/OpenAPI, Azure
- Engineering – OOPs, DSA, Agile/Scrum
- Frontend Technologies – React.js, HTML, CSS, Material UI

CERTIFICATES

- GH 300: GitHub Copilot
- AI-901: Microsoft Azure AI Fundamentals
- Claude Certified Associate - Foundations
